

The 11th International Symposium
on Selenium in Biology and Medicine

and

The 5th International Conference on
Selenium in the Environment and
Human Health

Stockholm
13 - 17 August 2017

Se2017
SPONSOR PROSPECTUS

Sponsorship and exhibitor prospectus

Sponsor and exhibitor opportunities To celebrate 200 Years of Selenium Research an international selenium conference will be held at Karolinska Institutet in Stockholm on August 13-17, 2017. The conference will be the largest Selenium conference ever and cover all fields of current selenium research, with a special focus on biology, medicine, biomedicine and the environment. The conference will officially be composed of two serial symposia; for the first time held in parallel at the same site and having overlapping plenary sessions, poster sessions and social events. The two symposia are *The 11th International Symposium on Selenium in Biology and Medicine*, which is the continuation of a meeting held in Berlin in 2013 and *The 5th International Conference on Selenium in the Environment and Human Health*, as continued from a meeting held in Brazil in 2015. For more information, see the conference website www.Se2017.se.

Take this opportunity to come to Stockholm in August 2017 to meet with the majority of today's selenium researchers! The Se2017 conference will provide excellent opportunities for specifically directed networking and interactions with this unique group of researchers in modern molecular life sciences, agriculture, medicine and the environment. Don't hesitate to contact the organizers if you are interested in our sponsorship and exhibition packages or if you have any other questions or ideas for the upcoming conference.

Welcome to Se2017!

On behalf of the organizing committee,
Elias Arnér, MD PhD
Chair, Se2017
